Report from Head Mistress

(From 01st January 2018 to 31st December 2018)

There is a great saying: “Real education fetches you more than a job, it teaches you to live. It cannot be measured in any tangible way.

We at Shrinivas Public School have always been committed to create an environment that helps young minds to blossom and provide a platform for individual thinking and holistic development of each child's personality.

The school is committed to fulfill the requirements of formal education along with integrate values of truth, compassion and a code of ethics for life, work, profession and everyday dealings with others. The school has evolved into a space wherein the objective of holistic and spiritual development of a child is given due importance. Therefore, this center of learning also inculcates lost traditions, moral values and sanskars for harmonious development and growth of children.
